Homework - 01.03.2019

Save it inside your GD and 000webhost inside Homework folder, and inside folder 01032019

Create simple html page using the mockup below, use:
- https://jsonplaceholder.typicode.com/users - for data
- image name will be [username].jpg (username from json, for example Bret.jpg), find some small sample images
- grid or flex for structure
- font awesome for icons
- first icon in header will be a link to homework index page, no need for links on other buttons
